
Dear Visitor,

You are scheduled to take a field trip on _____(date) at

*The Ohio State University Waterman Dairy Farm
2433 Carmack Road
Columbus, Ohio 43221*

The highly publicized foot and mouth disease has become a concern of land grant colleges nationwide since there are many uncertainties about the spread of the disease. The possible spreading of this disease causes Americans to become conscious of the global community in which we reside and our individual responsibilities to protect it. Therefore, the Administrative Cabinet of the College of Food, Agricultural, and Environmental Sciences at OSU is taking preventive measures to protect our coveted research centers, animals, and farms across America. In addition to wearing protective shoe coverings, we will need the following information:

I _____ (print name) verify that I have / have not (circle correct response) traveled outside the continental U.S.A. during the 5 days prior to _____ (date of field trip).

Additionally, I _____ (print name) verify that family members or individuals living in the same household as I reside have / have not (circle correct response) traveled outside the continental U.S.A. during the 5 days prior to _____ (date of field trip).

If you or any member of your household has been outside the continental U.S.A. 5 days prior to the date of the tour, you will need to contact:

Reagan Bluel (614/292-6759) to discuss attendance at the field trip event.
