

Price Prediction Reliability 34.832

Estimate of Nutrient Unit Costs		
Nutrient name	Estimate	
NEI - 3X (2001)	0.090108	**
Metabolizable Protein (MP)	0.336973	**
ne-NDF	-0.076298	**
e-NDF	0.056219	~

- A blank means that the nutrient unit cost is likely equal to zero
- ~ means that the nutrient unit cost may be close to zero
- * means that the nutrient unit cost is unlikely to be equal to zero
- ** means that the nutrient unit cost is most likely not equal to zero
